

POOLE'S CAVERN

Discovery Trail

Poole's Cavern is a fantastic place
to use all of your senses.

How do you think the
cavern was made?

Tick a box.

Using Your Senses

Let's discover more about the cave and use our senses to help us.
First, write the name of your five senses using the picture clues below.

Powerful Senses

Choose your most powerful sense and
write some words here to describe
what you experienced.

A Cave Full of COLOURS

Without **lights** in the cave it would have been very dark.

Use your sight to look at the colours around you and tick the colours you can see in the rock.

Feeling your way

Are the cavern walls rough or smooth, damp or dry? Use your sense of touch to find out what the surfaces around you feel like. Circle the words which describe the way the cave walls feel to you.

WET DRY SMOOTH SHARP HARD SOFT COLD WARM SLIPPERY ROUGH

Listen to the...

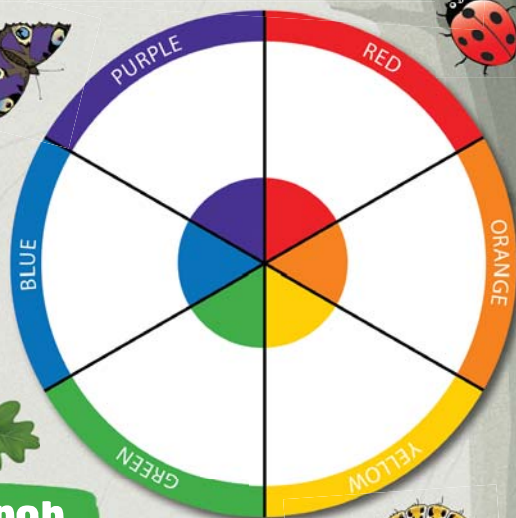

There are some sounds in the cave you can only hear if you stand quietly and close your eyes. Use your sense of hearing and tick the sounds you think you can hear.

Nature Wheel

Outside the cave you can experience a completely different world of colour, smells, noises and nature. Take a few moments to think about the inside of the cave and how different the world looks outside.

See if you can find something which matches the colour on the wheel!

Wildlife Word Search

Notice trees, flowers, birds, insects, animals, clouds, the sunshine, hedges and grass. Find some of the nature around you in the word search below.

R	S	Z	J	F	E	S	H	G	U	S	L	D	W	T	T
